SOURCE Stanki 1 instrument, No 3, 1949.MACHINE-TOOL BUILDERSSEE NEW MODELS, HEAR 1949 PLANS

Members of the Ministry of Machine-Tool Building were shown new models produced during 1948 at a special meeting held 19 - 21 January. Model 1620 and 1A62 machine tools built by the Krasnyy proletariy Plant, multispindle automatic machine tools built by the Plant imeni Ordzhonikidze, MSZ Model 345 surface-grinding machines, and an original ENIMS grinding head were among the new pieces of equipment shown. It was pointed out that the proportionate number of new-model machine tools built during 1948 was double that of 1947.

Emphasis this year is to be placed on replacement of obsolete machine tools, the meeting was told. Production of the following items is to be pushed: Model 1620 lathes (3,000 rpm), Model 1A62 lathes (1,200 rpm), Model 1616 lathes (2,500 rpm); universal, horizontal and vertical milling machines Models 6N82, 6N82G and 6N12 (up to 1,500 rpm), and 25- and 35-millimeter drilling machines.

Two automatic shops for the manufacture of piston rings and pins, and a whole automatic plant for the manufacture of automobile pistons are to go into operation during 1949. Work in the piston plant will be completely automatic, from casting to packing of pistons for delivery to consumers.
